

AllianceBernstein Global Health Care Fund, Inc.

**1345 Avenue of the Americas
New York, New York 10105**

August 18, 2008

Dear Shareholder:

We are sending you this letter to inform you of the recent approval by the Board of Directors of AllianceBernstein Global Health Care Fund, Inc. (the "Fund") of the acquisition of the assets and liabilities of the Fund by AllianceBernstein Global Thematic Growth Fund, Inc. ("Global Thematic"), which is currently known as AllianceBernstein Global Technology Fund, Inc. ("Global Tech"). The acquisition will take effect in early November, and Global Tech will be transitioning to Global Thematic at the same time the acquisition takes place.

The acquisition was approved by the Board upon the recommendation of the Fund's adviser, AllianceBernstein L.P. (the "Adviser"), which believed that the Fund's shareholders would benefit from the opportunity to be invested in Global Thematic, which will have the same objective as the Fund (long-term growth of capital). Unlike the Fund, which invests primarily in the health care sector, Global Thematic will invest in a global universe of companies in multiple industry sectors that may benefit from innovation. Since Global Tech is a substantially larger fund than the Fund, and has a lower expense ratio, we anticipate that the acquisition will result in a lower expense ratio for the Fund's shareholders. After careful consideration, including consideration of alternatives, the Board determined that the acquisition was in the best interests of the Fund and approved it.

Pursuant to Global Thematic's new strategy, the Adviser, drawing on its extensive research capabilities, will assess the effects of economic and technological changes that will influence corporate performance across multiple industry sectors and then assess the effects of these changes, in the context of the business cycle, on entire industries and on individual companies. Through this process, the Adviser will identify key investment themes for Global Thematic. Current examples of these themes include the broadband revolution, climate change and the growth of the middle class in the developing world.

Additional information about the acquisition and the transition of Global Tech to Global Thematic and other matters is included in the enclosed supplement to the Fund's prospectus, which you should review carefully. In addition, you will receive a prospectus relating to the acquisition in September, which you should also read carefully.

Thank you for your continuing interest in the Fund.

Sincerely,

Marc O. Mayer
President
