

A benchmark-agnostic portfolio that is built around forward-looking thematic opportunities, not backward-looking indices

Compelling investment themes have their own drivers of growth that span across traditional sectors and industries.

As of December 31, 2023 | **Source:** BloombergNEF, BofA Global Research, Flex, Global Wind Energy Council, International Data Corporation, MIR Databank, Morgan Stanley, SkyQuest Technology Consulting, Statista, Strategic Market Research, Wind and AB

The United Nations Sustainable Development Goals (SDGs) provide a roadmap for thematic investors

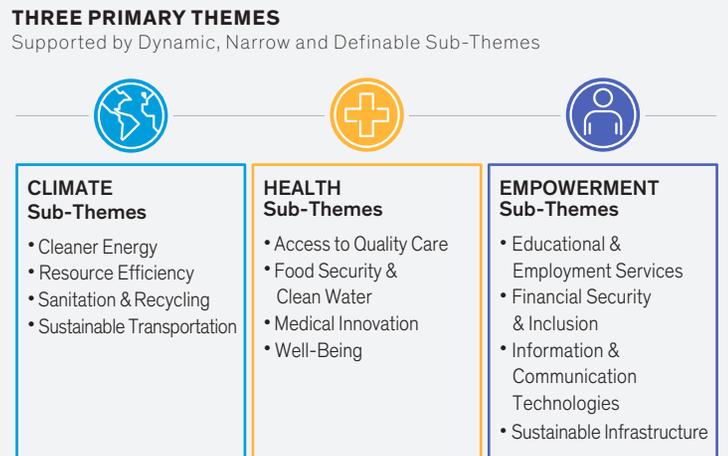

The SDGs represent the powerful consensus of 193 countries committed to solving a set of global challenges that will require an estimated US\$90 trillion investment.

For informational purposes only | **Source:** UN and AB

Powerful themes are expected to persist, irrespective of changing geopolitical or economic factors

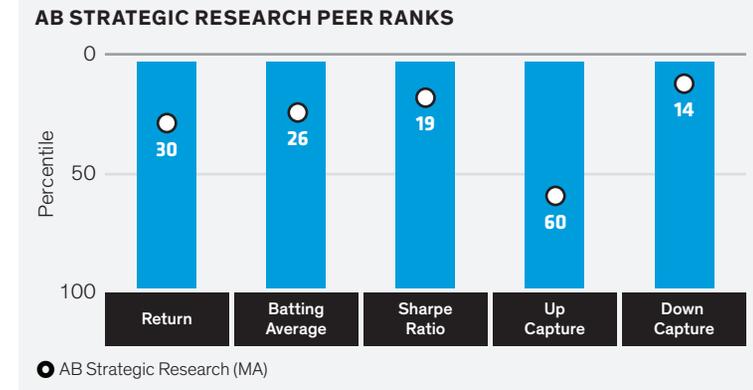

Principal themes provide a solid foundation for dynamic and definable sub-themes.

*Pure Gross Return is supplemental information. † Annualized through most recent year-end | Source: S&P and AB

Sharpe ratio is a measure of the fund's return relative to the investment risk it has taken. A higher Sharpe ratio means the fund's returns have been better given the level of risk the fund has taken. **Max drawdown** measures the decline in performance from peak to trough. **Up capture** measures the percentage of market gains captured when markets are up. **Down capture** measures the percentage of market losses endured when markets are down.

Presentation of the Firm—AllianceBernstein L.P. ("ABLP") is a registered investment advisor with the US Securities and Exchange Commission. AB Institutional Investments and AB Investments (collectively, the "Firm") are the institutional and retail sales, marketing and client service units of ABLP. In February 2006, Alliance Capital Management L.P. changed its name to ABLP.

Compliance Statement—The Firm claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. The Firm has been independently verified for the periods from 1993 through 2020. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Composite Description—The performance results displayed herein represent the investment performance record for the Strategic Research Equity Managed Account Composite (the "Composite"). The Composite includes all fee-paying discretionary accounts. The investment team that manages the Strategic Research Managed Account, seeks to generate a premium through top-down and bottom-up research. Using the research predominantly produced by the firm's research and investment resources, the team strives to buy companies that are beneficiaries of major secular themes. The creation date of this Composite is prior to December 1992, and the inception date is December 31, 1981.

For the performance period presented, investment professionals may have changed or departed, none of which in the Firm's view have altered the composite's strategy. A complete list including composite descriptions, pooled fund descriptions for limited distribution pooled funds, and broad distribution funds managed by the Firm is available upon request. Additional information regarding policies for valuing accounts, calculating performance, and preparing GIPS reports is also available upon request via email to compositerequests@alliancebernstein.com.

Total Return Methodology and Fee Structure—Performance results are shown in two formats. Pure gross returns do not reflect the deduction of any trading costs, fees or expenses. Pure gross of fee returns are supplemental to net returns. Net returns are calculated by deducting the highest applicable Managed Account fee (3.0% on an annual basis, or 0.25% on a monthly basis) on a monthly basis from the pure gross Composite monthly return. The Managed Account fee includes transaction costs, custodial service fees and investment advisory fees.

Rate of Return—No representation is made that the performance shown in this presentation is indicative of future performance. An account could incur losses as well as generate gains. Performance figures for each account are calculated monthly on a trade-date basis using a total rate-of-return calculation. Investment transactions are recorded on a trade date basis, and interests and dividends are recorded on accrual basis, net of withholding taxes, if applicable. Investments in securities are valued in accordance with the Firm's Valuation Policies and reflect a good faith estimate of fair value levels for all investments, which may not be realized upon liquidation. The fair valuation process requires judgment and estimation by the Firm. The gross-of-fee returns reflect the deduction of trading costs. The Composite returns are calculated based on the asset-weighted monthly composite constituent account returns where the weight is the beginning fair value of the accounts.

Dispersion—Internal dispersion is calculated using the asset-weighted standard deviation of all accounts included in the Composite for the entire year; it is not presented for periods less than one year or when there were fewer than two accounts in the Composite for the entire year. The three-year annualized ex post standard deviation measures the variability of the Composite and the benchmark returns over the preceding 36-month period; it is not presented for periods of less than three years.

The benchmark is the S&P 500. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

S&P 500 includes 500 US stocks and is a common representation of the performance of the overall US stock market.

There is no assurance that a separately managed account will achieve its investment objective. Separately managed accounts are subject to market risk: the market values of securities owned will fluctuate so that your investment, when redeemed, may be worth more or less than its original cost.

[†] Prior to August 23, 2021, the Fund was named FlexFee US Thematic Portfolio. [‡] This reflects the Adviser's contractual waiver of a portion of its advisory fee and/or reimbursement of a portion of the Fund's operating expenses. This waiver extends through November 1, 2024, and may be extended by the Adviser for additional one-year terms. Absent reimbursements or waivers, performance would have been lower. Expenses are capped at 0.65%, excluding acquired fund fees and expenses other than the advisory fees of any AB mutual funds in which the Fund may invest, interest expense, taxes, extraordinary expenses, and brokerage commissions and other transaction costs. Net expense is actual cost paid by investor, displayed as a percentage of Fund's net assets. | **Source:** Lipper, Morningstar, S&P and AB

Past performance does not guarantee future results. Current performance may be lower or higher than the performance information shown. You may obtain performance information current to the most recent month-end by visiting abfunds.com. The investment return and principal value of an investment in the Portfolio will fluctuate, so that your shares, when redeemed, may be worth more or less than their original cost. Advisor Class shares have no front-end or contingent deferred sales charges; however, when purchased through a financial advisor additional fees may apply. Returns for other share classes will vary due to different charges and expenses. Performance assumes reinvestment of distributions and does not account for taxes. If applicable, high double-digit returns are highly unusual and cannot be sustained; such returns are primarily achieved during favorable market conditions.

Lipper rankings are based on total returns at net asset value without the imposition of a sales charge, which would reduce total-return figures. Lipper averages represent the average returns of funds contained in the respective Lipper category. Funds within the category generally have similar investment objectives although some may have different investment policies. Rankings shown are for Advisor shares only, although other share classes are available for which management fees and sales charges will differ and rankings may vary. Investors cannot invest directly in indices or averages, and their returns do not represent the performance of any AB mutual fund.

Investing involves risk, including the possible loss of principal.

A WORD ABOUT RISK—Market Risk: The market values of the portfolio's holdings rise and fall from day to day, so investments may lose value. **Foreign (Non-US) Risk:** Non-US securities may be more volatile because of political, regulatory, market and economic uncertainties associated with such securities. Fluctuations in currency exchange rates may negatively affect the value of the investment or reduce returns. These risks are magnified in emerging or developing markets. **Capitalization Risk:** Investments in mid-capitalization companies may be more volatile and less liquid than investments in large-capitalization companies. **ESG Risk:** Applying ESG and sustainability criteria to the investment process may exclude securities of certain issuers for nonfinancial reasons and, therefore, the Fund may forgo some market opportunities available to funds that do not use ESG or sustainability criteria.

Investors should consider the investment objectives, risks, charges and expenses of the Fund/Portfolio carefully before investing. For copies of our prospectus or summary prospectus, which contain this and other information, visit us online at abfunds.com or contact your AB representative. Please read the prospectus and/or summary prospectus carefully before investing.
